

ATLANTA PUBLIC LIBRARY

In the Matter of:

Wireline Competition Bureau Seeking Comments on E-rate Category Two) WC Docket No. 13-184

As a first-filer for erate this year, I did not file for Category Two services. I wanted to learn the system before tackling two categories. I have every intention of filing for both Category One and Category Two services next year. My library could not now offer what services it does without erate. We are both small and rural. Sometimes it is hard for people who make rules to remember that this country still has areas like ours. Many of my patrons come in to the library because they can't get internet at their homes. Not only can they not afford it, but also it just isn't available. No matter the cost. The increased need for wifi specifically is rising. We need to have Category Two services available.

Sincerely,

Jackie Icenhower
